George:

The Director has expressed his sincere gratitude for the outstanding performance of those who, during the recent weather emergency, worked many long hours without relief to ensure that our Agency was in the best possible position under the circumstances to carry on essential operations. Your own personal response throughout this period exemplifies the contribution of exceptional effort which went well beyond the normal call of duty.

I take justifiable pride in adding to the Director's tribute my own sincere commendation for your truly dedicated participation in this effort. I am reassured in the knowledge that under the most difficult conditions as were encountered during this emergency the Agency can rely upon the devotion and wholly selfless efforts of its trusted officers.
